

# TOUR DE NEBRASKA

**June 22-26, 2022**

**Loup City | Broken Bow | Ord**

**34rd ANNUAL**

**Tour de Nebraska is a five-day, fully sagged annual  
bicycle tour of beautiful rural Nebraska.**

*Charlie Schilling, Director*

## OVERVIEW OF THE 2022 TOUR DE NEBRASKA

Established in 1988, Tour de Nebraska is a 5-day, non-competitive circle tour with a unique route each year to provide all cyclists an exceptional opportunity to experience Nebraska from the seat of a bicycle.

We've never had a route much past central Nebraska, but this year, you will experience a whole new adventure! Get ready for beautiful, scenic, peaceful, historic, welcoming western Nebraska.

### DAILY SCHEDULE

Breakfast is served the same time every day - 5:30-7 a.m.

### **Rest Stops**

TDN Rest Stops Coordinator Shari Rosso works very closely with every community to make plans for food, restrooms and activities, so please support their efforts and hospitality! It is very important to stop in every town/rest stop to fill up your water bottles, use the restroom and eat a snack. **These small communities go out of their way to welcome us AND the money raised goes to some wonderful community projects. PLEASE STOP AT THE TOWNS.**

Rest stop towns schedule their hours of operation based on cyclists leaving from the 5:30-7 a.m. breakfast. **If you leave before 6 a.m., towns may not be set up for you that early.**

We recommend that you carry at least \$250 or so in small bills as many of these rest stops are supported with "free will offerings" and are not equipped to take plastic. The SAGs always stop at all towns and rest stops as well, so it is a good way to catch them if needed. Be a good TDN Ambassador and support our friendly and generous local communities!

Our goal is to have a rest stop every 15-20 miles. This year's route has long miles between towns, so we've incorporated several "remote stops" where you can grab water and food to fuel you to the next stop.

### **Weather Reporting**

TDN is getting daily weather reports from the National Weather Service at 6:30 a.m. and 6 p.m. every day. In the event of severe weather, we will be sending out text alerts to keep everyone safe.

### **Early Morning Manners**

Tour de Nebraska is a camping bicycle tour. Some people start to rise and shine around 5:30 a.m. Others like to sleep later, which is fine. If you are an early riser, PLEASE SHOW CONSIDERATION TO YOUR FELLOW TOURISTS by being as quiet as possible.

If you want to get up earlier, please stake your tent or your sleeping bags away from others so you won't disturb those who are still sleeping. (This also applies to those who snore).

Early risers (before 5a.m.): leave your luggage NEXT TO the Penske truck. Do not throw it inside as the truck sometimes serves as a bedroom for our crew.

Rest stop towns schedule their hours of operation based on cyclists leaving from the 5:30-7 a.m. breakfast. **If you leave before that time, towns may not be set up for you that early.**

After 5:30 a.m., however, please load your own gear on the truck! All you have to do is walk up the ramp and place your bags inside the truck. Loading the truck is a fun, bonding activity and is designed to save wear and tear on our devoted crew! For those staying at motels, please stack your bags together in one place in front of the lobby if possible.

Everyone should be packed up, with your baggage in the Penske trucks and off to breakfast by 7 a.m. and on the road shortly after. Note: Fruit, water and air pumps (with schrader and presta attachments) will be available by the sag vans each morning, so please help yourself.

### **Route Markers**

Follow your daily route maps. We use neon orange spray paint (with approval from the NE Dept. of Transportation) to mark the shoulders or right side of the highway with directional arrows and our trademark "TDN." We will mark every turn (not the straightaways) along the route.

If you have a question, please consult your map. Study them before each day's ride and refer to them if you are not sure about a turn. The first sag will leave camp about 7 a.m. If you choose to leave earlier than 7 a.m., you may not see a sag until later, so please follow your map! Also, rest stops may not be ready for early riders and we are not responsible for riders who choose not to follow the official TDN route.

Remember, sags are for emergency mechanical or medical purposes, so PLEASE stop in every town and rest stop to fill your bottles, use the restroom and eat a snack. DO NOT bypass a town or rest stop, then flag down a sag for water a few miles down the road.

### **TDN Hospitality Tent**

Cold refreshments are provided at the Tour de Nebraska Hospitality Tent after each day's ride. Please refer to the TDN app for daily location. Alcohol is not allowed on school grounds, so our local host community will help us designate a space. There are no plastic cups. **You must bring your mug to imbibe.**

Hospitality: 1-4 p.m.

### **Merchandise**

T-SHIRT AND JERSEY EXCHANGES: TDN merchandise/exchange will be **available ONLY on Wed. and Thurs. from 1-4 p.m. at TDN Hospitality Tent locations.** We will do our best to exchange your t-shirt or jersey for another size only during these times.

Extra jerseys and other TDN merchandise will be for sale at TDN Hospitality Tent throughout the 5 days.

### **Minor Repairs and Bike Accessories**

Mechanics from TDN Cycle Crew will be available for minor repairs at the campsite every afternoon, until 5 p.m. Chain lube and air pumps are available for your use at all times, so help yourself. However, please don't ask to borrow tools, other than the pumps.

TDN Cycle Crew accepts payment for repairs/parts/equipment with Venmo, credit card or cash.

## RIDING TDN

### **Health Tips**

Fill your water bottles at every opportunity, stop at every town to rest, and carry an energy bar or some other food source. Stop at least every hour to replenish yourself, take a “butt break” and explore the local surroundings.

Drink before you're thirsty and eat before you're hungry. A rule of thumb is to drink one water bottle each hour. Use lots of sunscreen and lip protection with at least 30 SPF-and make sure it's not out of date. We also recommend that you ride with a buddy or in a group so you can help each other out if needed (besides, it's more fun!).

### **What to Eat and Drink While Riding**

Get at least 30-60g of carbohydrates per hour. Also some fat and protein: PBJs, skinless boiled/baked potatoes w/salt, olive oil, and parmesan. Generally one to two bottles of water per hour. Easy way to get carbs with sports drink mixes.

### **Don't Bonk!**

Feeling weak and wore down? Miss a snack or two? Reach for junk food to save your ride. Regular Coke, sweet tea, gummy bears, etc. Baked or boiled white potatoes have a higher glycemic index than table sugar, so they're absorbed into your body quick. You want simple sugars. Top things off with a little bit of fat and protein.

### **Official SAG Information**

TDN Cycle Crew serves as the TDN official SAG crew. They are ready to provide EMERGENCY mechanical or medical assistance. Be prepared to do your own minor repairs. Please help yourself to fruit, water and air from any of our official SAG vehicles.

You'll see four official Tour de Nebraska SAG vehicles on the road each day: a 24' big yellow (or white) Penske truck and a smaller 16' “Little Penske” for luggage, Andy Pedley's mechanic vehicle and two white Honda Odysseys provided by Honda of Lincoln. We do not offer SAG pickups unless there is a medical or mechanical emergency. If you are planning on riding only half-days, please make your own pickup arrangements. Our SAGs are very busy!

If hot weather continues, plan to out of camp by 7 a.m. to beat the heat and ride when it's cooler. Also, drink plenty of fluids!

Complimentary fruit, water and air are available in the sag wagons at all times. When you see one of our vehicles stopped along the road, help yourself!

Sags will stop at every rest stop, in case you need assistance.

### **Obey the Law**

Nebraska law requires you to ride single file. Be courteous to passing vehicles. Never ride in the middle of the road! Inconsiderate cyclists give TDN a bad reputation! Wave at vehicles that move over!

## AFTER RIDING

### **Massages and Yoga**

Debra Quandt-Smedra, 402-440-6569

Pat Spencer, 402-429-3054

Please call or text Debra or Pat to book your massage appointment. Likely, they will be setting up in each of the schools. Treat yourself and you will be glad you did! Each therapist sets their own rates.

Yoga: Free yoga sessions will be led by Madeline Wiseman at 3 p.m. Wednesday through Saturday. The location is TBD. Likely, we will send a daily text alert.

### **Luggage Pickup from Motels, B&Bs**

**IF YOU ARE STAYING AT A MOTEL:** Take the community shuttle to your motels the day you arrive. You may or may not be able to take your bike on the shuttle, so plan accordingly. No shuttles in the a.m.

In the morning, just leave your gear outside the lobby's front door for pickup by the Penske. See the lodging list at [tourdenebraska.com](http://tourdenebraska.com) for locations where we'll pick up luggage.

### **Responsible Rider Pledge**

#### **Health & Safety**

Helmets must be worn at all times while on your bicycle.

#### **COVID-19 Guidelines**

Purchaser assumes all COVID-19 related risks and all state and local guidelines apply. Riders will be required to:

Be healthy to participate

Depending on COVID at the time of the ride, indoor camping at school may require proof of vaccine or negative rapid test

Test yourself if you start having COVID symptoms (congestion, fever, runny nose, diarrhea, headache, etc.). If you are positive, isolate (or go home) per CDC recommendations to prevent spread to other TDN riders, crew and partner communities.

Thank you to the TDN COVID Mitigation Plan Committee:

### **Next Year's 35th Tour de Nebraska**

## **June 21-25, 2023**

We do our best to plan a safe, well-organized tour for you to enjoy. Thank you for coming.

If you have ideas or suggestions to help us improve Tour de Nebraska, let us know!

**TIRE PUMP: TDN Cycle Crew has tire pumps.**

**DON'T FORGET: GOOD HUMOR! Tag your bags!**

## Fixing a Flat

Please be prepared to fix your own flats on Tour de Nebraska. If you're really lucky, you won't have any. You might consider putting sealant or "slime" in your tubes or use pre-slimed tubes. Some tubes and tires are more flat resistant than others, so please consult with your local bike shop. It is recommended you **practice**

**changing a flat BEFORE the TDN.** If you have a flat on the road, don't panic-- with a little practice you can do this easy repair on your own. It only takes a few minutes if you complete the task correctly. We have arranged a list in chronological order for task completion.

Carry these tools on your bike: Tire levers, patch kit and/or new tube, hex wrench kit if you don't have quick release wheels, frame pump.

First, release brake or remove brake cantilever wire so that you can get the wheel off. Then:

If you are replacing the tube:

1. Undo the quick release or get the appropriate size wrench and remove the wheel from the frame.
2. Completely deflate the tire if there is any air left in the tube.
3. Use the tire levers to remove one side of the tire from the rim. You might have to use more than one lever to get the tire to come off of the rim.
4. Removing the whole tire is not necessary.
5. Remove the tube from the tire cavity.

If you are patching the tube:

1. Find the puncture by inflating and listening or inflating and dunking under water (spit works well).
2. Dry and clean puncture area.
3. Use sandpaper to thoroughly sand the area around the puncture. This is the most important part. Make sure you do this step well. Sanding the area increases the adhesive ability of glue.
4. Apply a thin layer of glue and allow to dry for 2-3 minutes before applying the patch. (If you are applying an instant patch, put instant patch over hole and rub area firmly to set adhesive backing).
5. After the thin layer of glue has set, apply the patch over hole and rub firmly with fingers or rounded object such as the tip of the plastic tire iron.
6. Allow a few seconds for glue to completely set and peel the clear plastic off of the rubber patch.

Putting it all back together:

1. Put some air into the tube so that it holds a circular shape, not too much air though, it will make it hard to get the tire back on.
2. Make sure you check the entire inside of the tire for any thorns, rips, etc. If a cut or rip is discovered, a "boot" may need to be used to keep the new tube from blowing out the cut. Boots can be made from match flaps, folded dollar bills, etc.
3. Place tube back into the tire cavity.
4. Put tire back onto the rim. This is the hardest part next to getting the tire off.
5. You can use the tire levers to get the last bit of tire back onto the rim. They will help you "snap" it back on. It is better though to use your fingers to avoid "pinching" your new tube and creating another leak.
6. Make sure the valve is pushed in enough so that the valve itself does not get in the way of the tire bead and clinching groove.
7. Inflate tire being careful not to bend the valve.
8. Replace wheel onto bike.
9. Reattach brake cable.
10. Spin wheel to ensure brake is not rubbing.

## Code of Ethics

**Please read before the tour begins!**

**Organizers will:**

- Promise to do all that is possible to keep cyclists safe at all times. Safety is our #1 concern.
- Provide information about Nebraska laws pertaining to bicycling prior to the event.
- Acknowledge all are open to vehicular traffic; all rules of the road and Nebraska laws pertaining to bicycling must be obeyed.
- Provide the Nebraska State Patrol, Nebraska Dept. of Transportation, County Sheriffs, County Emergency
- Teams and City Police staff route maps and descriptions.
- Use lesser-traveled where possible and practical, or with suitable shoulder, and coordinate all routes with the Nebraska Dept. of Transportation.
- Ask participants or groups to withdraw from the ride if they continue to ride in an unsafe manner after receiving a verbal warning.
- Require all host communities to have an emergency plan in place.
- Not be responsible for Nebraska weather, and to inform participants about weather events that may adversely affect cycling conditions.
- Call 911 in case of a medical or weather emergency.
- Provide non-emergency support names numbers are provided on all daily maps.

**Participants will:**

- Report to organizers and volunteers any safety issues related to the road or event.
- Check in and sign liability waiver before the start.
- Immediately advise event organizers if they see anyone or groups riding in an unsafe manner.
- Call 911 in the case of a medical emergency. Non-emergency support names numbers are provided on all daily maps.
- Wear a helmet that meets CPSC, ANSI and/or Snell (or similar standards).
- Be responsible for ensuring that their bicycle is in good working order before the event.
- If possible, wear mirrors and avoid headsets or ear buds for safety reasons.
- Understand that Tour de Nebraska is a noncompetitive tour, not a race.
- Take responsibility for their own safety, and for knowing and complying with the applicable vehicle codes.
- Ride in a safe and courteous manner; and stay to the right, except when passing.
- Understand all participants under the age of 18 must be accompanied by their parent or a legal guardian.
- Understand no alcohol or illegal drugs are allowed on school property.
- Refrain from being under the influence of drug or beverage product, which could impair their riding judgment while participating in the event.
- Avoid riding in groups larger than 16 cyclists. Groups should be at least 100 meters apart on the road to allow other vehicles to pass safely.
- Be responsible for ensuring they are sufficiently fit for this tour.
- Agree to read the Tour de Nebraska Handbook before the event so they are thoroughly aware of the route descriptions and event guidelines designed to ensure a safe experience.
- Notify organizers if they withdraw from the event.

## *The Rich & Susan Rodenburg Spirit Award*

The Spirit Award is given annually during the last evening of the tour at the TDN Awards Banquet. It was created by a group of distinguished gentlemen from Kansas City, so fondly named Team Spirit, to inspire others to spread joy, humor and kindness during Tour

de Nebraska. It is a traveling award in that the Team so honored must return on tour the following year to choose the next worthy recipient. The award itself is a roadkill cup mounted on a stylish wooden plaque.

The Team Spirit Award is based on the following behavior categories (of course these have been amply demonstrated by Team Spirit):

**S** is for stamina: ride with ease and/or speed (considering age, conditioning, equipment)

**P** is for personality: make acquaintances with other tour members, with town folk, and with local officials such as police, newspapers, mayors etc.

**I** is for inspiration: sing, gleeful gestures, and encourage other riders

**R** is for roughing-it: tent in any weather, enjoy the heat-distance, and ride with delight in the rain

**I** is for interest: wear distinctive jerseys, team hats, or bestow objects of fun such as ice cream bars, pins, noise makers

**T** is for tipping: one or both of these sub-areas merit considerations – tip the mug, shot class, tumbler and/or provide tips to other riders on how to bask in Nebraska and relish the experience – point out good stops along the way (pie, food, shade), must see sites, local color, or impromptu swimming, volleyball, face painting, etc.

## **TDN GRAVEL ADVENTURE**

Rick Dockhorn and Matt Hopken helped plan and organize a wonderful gravel adventure to Bootleg Brewery. Thank you Rick and Matt! You are awesome!

Doty and Ron are the owners of Bootleg that are hosting us! Please extend your thanks to each of them. For 6 p.m. supper, Doty is making pulled pork sandwiches, cole slaw and potato salad. TDN is hosting two (2) Bootleg drinks per person. Cabins 4 & 5 are available for showers. Breakfast is at 6 a.m. and will include hot coffee and homemade cinnamon rolls. Wheels up for Ord on Saturday morning no later than 7:30 a.m.

Gravel SAG: Mike McGrath 501-765-9945

Please welcome and thank Mike for volunteering to support you and his family that are doing the ride!

Mike will be in a truck and have cell phone, water, snacks, fruit, first aid kit and a "gravel kit" provided by Matt Hopken. He will lag behind the group and be available via cell if you need anything as he tracks your group. Rick Dockhorn will be on-site and will have "snacks" and a cooler of drinks. Oh, and yes, your gear will be SAG'ed. During check in, please ask for the extra wristband that will denote your bags are going to Bootleg. On

Friday morning, plan on dropping off those bags in the "small" Penske. On Saturday morning, drop your luggage in front of Bootleg Brewery and we will pick up.

Gravel riders only: If you have not paid for the \$30 gravel shower/meal package, please pay at check in.

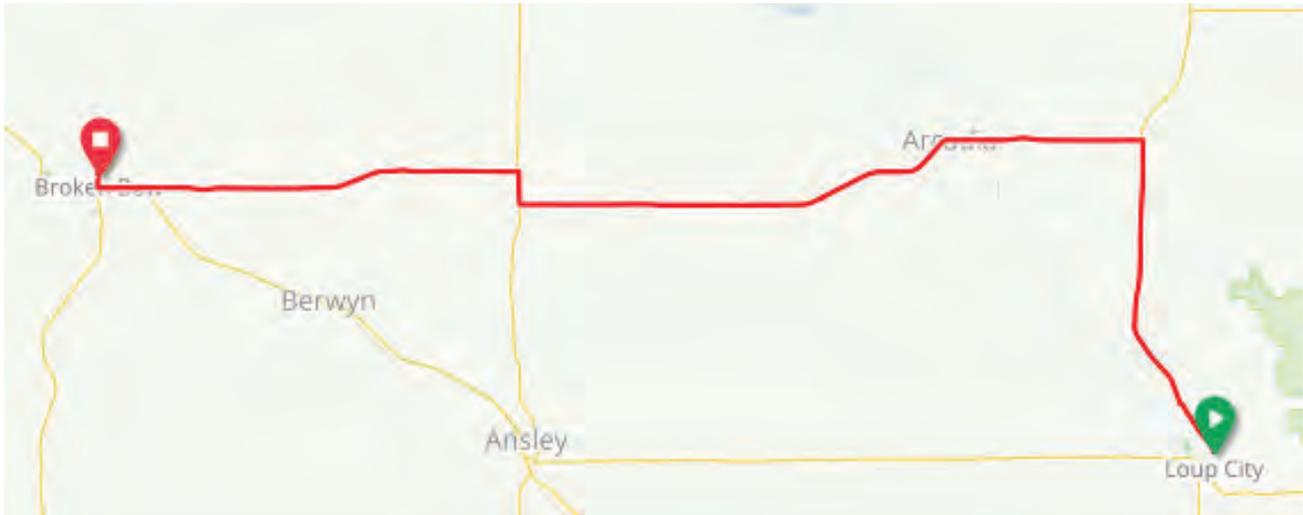

Gravel riders that are sleeping in the cabin: I have authorized a few to sleep in the cabins per special request and my approval. If you have not paid \$25, please pay at check in.

## **GRAVEL MAPS ARE AVAILABLE FOR DOWNLOAD IN RIDEWITHGPS ONLY.**

To download the maps to your Garmin or GPS device, below are instructions:

- Link to help page: <https://ridewithgps.com/help/mobile-app-experiences/#gps-device>
- There is no easy way to do this in the field. Its best served by doing this ahead of time before you leave for the event.

Brian Kreuzberg and Honda of Lincoln have been on the Tour de Nebraska team for over 10 years. You'll see the Honda vans as part of our SAG fleet, packed with fruit, water and supplies.

"As a Sales Consultant, the best part of my job is meeting interesting people. I make the experience different at Honda of Lincoln by spending quality time with my customers and getting to know them on a deeper level. Being personable makes it easier for me to fulfill each customer's individual needs and make the experience more unique. My motto is, 'In the end everything will be alright, and if it's not alright, it's not the end,'" Brian says.
